

Simône Bradshaw
Hypnotherapist In Training

About Me

Simône Bradshaw is a Clinical Hypnotherapist (Trainee). Trainee means that I have passed my Certificate in Clinical Hypnotherapy. After visiting many Hypnotherapists for Various issues, including Weight Loss, I made a decision to help other people to obtain the correct Hypnotherapy Service which is right for them. Each person is an individual and therefore must be treated as such and each session will be different based upon the individual involved.

My Accreditation

I passed my Certificate in Clinical Hypnotherapy with the Surrey College of Clinical Hypnotherapy and Psychotherapy, who are one of the only colleges with Awarding Body Accreditation. My Certificate means that I am allowed to practice the subjects that are covered in my Certificate course. Currently I am qualified to provide Clinical Hypnotherapy Sessions for the subjects as listed on my website and on the enclosed Services Brief. However I am currently undertaking my Diploma in Clinical Hypnotherapy which means that as time progresses, the areas that I am qualified in, will increase vastly. I am fully qualified with **Advanced Smoking Cessation**.

Awarding Bodies include:- The National Council for Hypnotherapy, The Hypnotherapy Association and The NCFE. I also belong to various Clinical Hypnotherapy Societies so I am always kept up to date with new information as it becomes available.

I am due to pass my Clinical Hypnotherapy Course in October/November 2009. After which time, I will be offering my services at the market rate.

Standards & Supervision

By agreeing to study with the above governing and awarding bodies, I have agreed to adhere to various Standards to include 'providing Best Care and Best Advice' (if I cant help you, I will tell you, I will not allow you to complete numerous sessions without adding any benefit whatsoever), and Advertising Standards Agency, which means that I will not advertise my services to 'guarantee a cure or prevention' (no organisation are legally allowed to do this under ASA Legislation-despite many organisations still advertising as such).

In completing my training, I have agreed to partake in a number of Supervision sessions per year where I will consult with my Supervision Practitioner.
